SHARE

Rajoo Engineers Ltd has recently unveiled its expanded facility in Rajkot, signalling a significant advancement in the realm of plastic processing machinery. With the inauguration of this expanded facility, the company triples its manufacturing capacity to meet rising demands and enhance operational efficiency.

Spanning across 18,000 sq ft and towering at a height of 100 ft, the new factory shed stands as a testament to the company's commitment to innovation, quality, and customer satisfaction. Equipped with state-of-the-art technology, the expanded facility is poised to revolutionise the production landscape, catering to diverse global requirements with unmatched precision and reliability.

R N Doshi, Chairman of Rajoo Engineers Ltd, expressed his enthusiasm, stating that the expansion marks a crucial milestone in the company's journey towards delivering top-quality products to national and international clients. This development not only signifies enhanced productivity and operational excellence but also aligns with India's vision of becoming a global manufacturing hub, embodying the principles of import substitution and the 'Make in India' initiative.
